

**MUELLER**

**Job Title:** Siding Technician

**Job Description:**

Mueller Builders LLC is seeking a qualified candidate capable of executing small jobs consisting of repairs and punch lists. The candidate must have applicable knowledge of siding, windows, doors, rake, fascia, and soffit installation. Mueller always has multiple jobs occurring at the same time. This requires a need for various materials to be picked up and delivered to those job sites. Mueller is looking for a candidate with experience installing hand rails as well. In the case of an emergency call, the candidate needs to be alert, intentional, and proactive in response to that occurrence. In addition, attention to service issues and warranty work will be required of this position. At the end of the day, customer satisfaction comes first. This position demands the highest level of service when managing customer requests and expectations. The Mueller Builders Team is comprised of highly skilled craftsmen that can deliver the best contracting and construction services for residential and commercial projects.

**Job Requirements:**
