COVID-19

The team at Mueller Builders, LLC is committed to the safety of our employees and customers. While we are considered an essential business during this unprecedented time, we have changed some of our protocol and implemented preventative measures to help control the spread.

Our office hours are still 8:30am to 5:00pm, Monday through Friday. All our employees are still working however, our office has been limited to employees only on an as needed basis. Our sales reps or project managers, as well as office staff are available to help with any issue or concern you may have. Due to the invasive nature of interior work, we have halted any interior renovation work on occupied homes until further notice. Our exterior renovations will continue as normal with the following steps:

1. Employees with ANY symptoms or illness are to stay home with paid sick-time.
2. Face-to-face interaction is limited with implementation of absolute social distancing (use of pictures, texts, Facetime, email, DocuSign, and telephone is encouraged).
3. Increased sanitary and personal hygiene, specifically hand washing is performed regularly.
4. Each employee will carry their own pen, not share telephones, laptops, or other work-related devices.
5. Employees will text or call customers prior to arrival and departure as needed.

It is our goal to continue working in an effective and responsible manner to control the spread while playing an active and necessary role in helping those we serve during these uncertain times. Please feel free to contact us at 804-533-7663(ROOF) or email us at info@muellerbuildersllc.com.
